PROFESSIONAL SUMMARY

Accomplished Information Management & Document Control Leader with over **18+ years of experience** delivering governance, digital project controls, and enterprise data analytics for mega-scale infrastructure and real estate developments across Saudi Arabia (including PIF-backed mega-programs like SEVEN P3). Expert in establishing and optimizing rigorous EDMS environments, managing Oracle Aconex Organization Administration, automating cost/operational tracking using Microsoft Power BI, and aligning document control with ISO 9001 quality standards and finance workflows (SAP GRN).

CORE COMPETENCIES & TECHNICAL TOOLKIT

EDMS & Platforms:	Oracle Aconex (Org Administrator), Autodesk Construction Cloud (ACC Admin), Procore, SharePoint, FileNet EDMS
Data & Analytics:	Microsoft Power BI (Certified Data Analyst Associate), Advanced Excel (Data Modeling, DAX, Power Query), Dashboards
ERP & Project Controls:	SAP (GRN Processing & Vendor Applications), Connected Cost (ACC), Project Governance, Cost Tracking
Quality & Compliance:	ISO 9001 Quality Management Systems, Information Lifecycle Management, Audit Trails, Archiving & Metadata
Engineering Domains:	Engineering Drawings (Plot Plans, Isometrics, Electrical, Instrumentation, Loop Drawings), Letters of Intent (LOI), Transmittals

PROFESSIONAL EXPERIENCE

Lead Document Management Specialist	Dec 2022 – Present
Turner & Townsend — Saudi Arabia (PIF-Backed Projects / SEVEN P3)	Al Khobar / Riyadh, KSA
• Act as Oracle Aconex Organization Administrator, governing multi-project information architecture, security permissions, and workflow protocols for 100+ multi-disciplinary stakeholders. • Architect and deploy automated Microsoft Power BI dashboards, integrating project control data to provide real-time executive visibility on transmittals, deliverables, and performance metrics. • Bridge project controls with finance by executing SAP GRN (Goods Receipt Note) processing and validating vendor payment applications in close coordination with SEVEN Finance teams, eliminating payment bottlenecks and audit discrepancies. • Standardize information governance policies, numbering taxonomies, and handover procedures across multi-million dollar entertainment and infrastructure packages.	
Document Control Manager & I.T Manager	Aug 2017 – Nov 2022
AMCC Construction	Riyadh, Saudi Arabia
• Directed end-to-end document control operations and IT support across premier commercial and entertainment developments (including Monshaat Offices, SAIP, and Empire Cinemas). • Maintained full compliance with ISO 9001:2008 / ISO 9001:2015 Quality Management Systems across thousands of high-volume electronic and hard-copy technical deliverables. • Managed complex engineering packages encompassing electrical, instrumentation, plot plans, loop drawings, and piping isometrics via EDMS and Aconex, reducing retrieval lead-time by over 40%. • Established strict numbering conventions, revision controls, and transmittal protocols between client representatives, supervising consultants, and specialized subcontractors.	

Senior Document Controller & I.T Specialist

May 2008 – Jul 2017

V3 Middle East Engineering Consultants

Riyadh, Saudi Arabia

- Spearheaded continuous enhancement of enterprise Document Control Management Systems aligned with ISO quality audits and client specific requirements.
- Drafted and reviewed Letters of Intent (LOI), contractual documentation, scopes of work, and formal project correspondence.
- Supervised multi-tier drawing transmittals (inbound/outbound) to clients, main contractors, and statutory bodies while maintaining secure on-premise and cloud server structures.
- Trained and mentored junior document controllers and project support staff on automated filing, classification systems, and QA/QC procedures.

Document Controller

Dec 2006 – Apr 2008

Saudi Group for Construction Material Co. Ltd.

Riyadh, Saudi Arabia

- Coordinated daily incoming and outgoing technical documentation, shop drawings, material submittals, and inspection requests.
- Proactively expedited pending design reviews and milestone approvals with engineering teams, resolving bottlenecks to adhere to tight project schedules.
